Volunteers for Victor Valley homeless count sought

A coordinated survey of homeless persons, conducted to help officials deal with one of the most inscrutable issues facing the High Desert, and other areas, are set to take place Jan. 28.

Organizers are seeking volunteers to help with the Point in Time Census as it rolls into Victorville. Some of those who will be filling out answered surveys.

The survey will consist of a brief questionnaire about the respondent and household members, followed by a longer survey using a handheld application. The survey will be completed by the household members who are family heads or housemates living in the household.

Information collected will be included in the Annual Homeless Assessment Report prepared annually to Congress. The report’s findings can influence federal funding from the U.S. Department of Housing and Urban Development: Continuum of Care Program Assistance.

Cicely’s mission is to complete outreach efforts and connect families and individuals with available services. Volunteers can sign up to participate.

The survey will be conducted the entire month of January and will be available online.

The survey is being conducted in cooperation with the City of Victorville and the San Bernardino County Department of Public Health.

According to a recent analysis, a permanent supportive housing model has been shown to have the highest rates of chronically homeless individuals.

The survey has shown that in areas where permanent supportive housing is available, the rate of homelessness is significantly lower. The survey has shown that in areas where permanent supportive housing is available, the rate of homelessness is significantly lower.

The survey was conducted in cooperation with the City of Victorville and the San Bernardino County Department of Public Health.
